

SAFE AREA

THE SAFE AREA IS THE AREA INSIDE THE DASHES THAT YOU WANT ALL IMPORTANT ELEMENTS INCLUDED IN SO THEY DON'T GET LOST. NOTE THAT PRINTERS DO NOT PRINT TO THE EDGES OF PAGES. FOR "FULL BLEED" (PRINTING GOING TO THE EDGES), YOU NEED TO TRIM YOUR MINIS WITH A PAPER CUTTER. IF YOU TRIM YOUR MINIS, YOU MAY WANT TO ADJUST THE CENTER LINE OF THE ARTWORK TO BE SLIGHTLY CLOSER TO THE FOLD.

THIS TEMPLATE SHOWS PAGINATION FOR MAKING A STANDARD 8,16, OR 32-PAGE MINI-COMIC. THE S NUMBERS BEFORE THE PAGE NUMBERS ARE THE SHEET NUMBER THAT THE PAGE NUMBER IS CORRECT FOR. MINIS ARE PRINTED WITH EVERY OTHER PAGE PRINTED ON THE BACK OF THE PREVIOUS PAGE (SO THEY ALL START WITH S1 PRINTED ON THE BACK OF S2). AN * BY A PAGE NUMBER INDICATES IT IS PART OF A COVER OR CENTERSPREAD.
